

I had the privilege of having Geoff as my IAM observer for a period of about 4 months and at the end of that time I felt fully prepared for and passed the IAM bike test.

The main benefit of the programme for me was always to improve my riding and with that, my safety and enjoyment of the whole motorcycling experience.

Geoff's performance on his bike and as an instructor are first rate and his style as an observer is extremely effective. He is friendly, engaging and completely non-judgemental in his approach and I very quickly gained full confidence and trust in him. This was the basis of our sessions and I always came away having learned a great deal and with much to ponder upon for the next session. This was always foremost in my mind during my own training rides and very quickly I sensed a real improvement in my riding and I am sure this will continue in the future.

The programme therefore provided everything I had hoped for and more. I greatly enjoyed Geoff's company and have no doubt that we will do more rides together in the future. I am hugely grateful and indebted to Geoff for his enthusiasm, top-tips and general wisdom about all things biking.
